Subject: Alert Wildfire

All,

Good morning,

I just wanted to take this opportunity to give you a brief update on the Alert Wildfire Camera installations.

The LAFD is looking at possibly three locations for setup; San Vicente, Mandeville Water Tank & UCLA (Santa Monica Medical Center)

These three locations will be a great start and will give us the needed viewshed for coverage.

The locations were selected based on discussions with the Alert Wildfire cadre.

These locations have the infrastructure to support a right now setup.

We are in the process of assessing several other areas for placement (based on your suggestions).

Our goal is quality over quantity, I will continue to keep you updated as we move forward in this process.

Thank you for your constant and consistent community involvement.

Armando R. Hogan, Deputy Chief
Operations West Bureau
Los Angeles Fire Department
