

# Overhead Power Pole Inspections

Pacific Palisades Area

August – October 2023

# Inspection Process

- Detailed “In-Depth Visual” inspection to be performed
  - Ensures Safety & Reliability
- Detailed Inspections are completed every 3 years
- Approximately 4,000 power poles in the Pacific Palisades will be inspected

Detailed inspections “*shall be defined as a careful visual inspection of Electrical facilities and structures using inspection tools such as binoculars and measuring devices, as appropriate.*”

-- General Order 95, Rule 80.1A

# Inspection Details

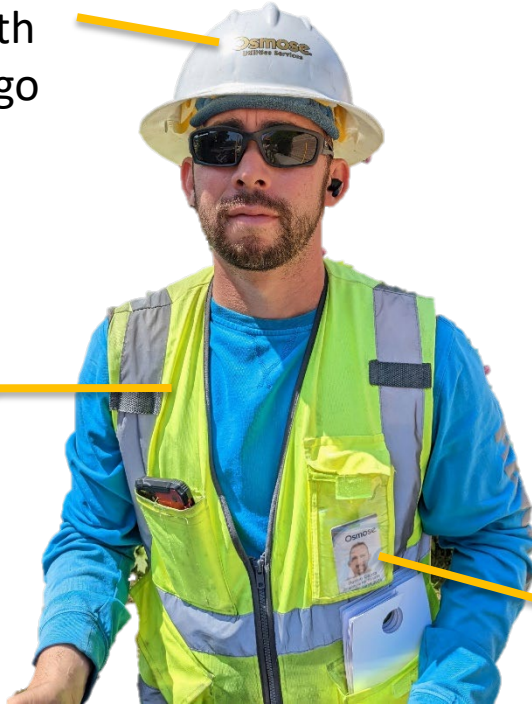

- Power pole condition and identification tags
- Electrical and communication equipment/conductors
- Transformers, cross-arms, insulators and wires

# LADWP Contractor Osmose

Hard hat with  
**Osmose** logo

High-  
visibility  
vest

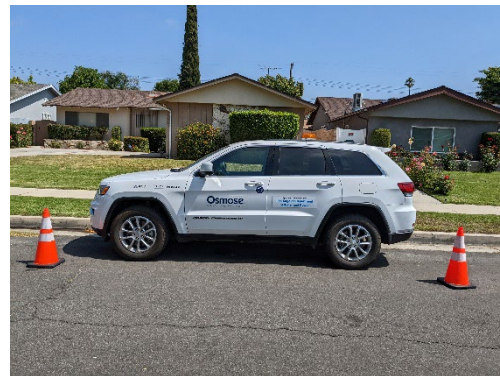

**Osmose**  
ID badge

Approved Contractor For:  
**Los Angeles Department  
of Water and Power**

# What to Expect

- Osmose crews will be in the area for approximately two months
- Inspecting one pole takes ~15-30 minutes
- Inspection set up is minimal – no traffic impacts or lane closures anticipated
- No anticipated power outages
- Inspectors will use binoculars, cameras, and other tools
- LADWP crews may follow up to perform repairs as needed – more info to come

# Poles Located on Private Property

Inspector will knock on the resident's door to request access.

Feel free to ask:

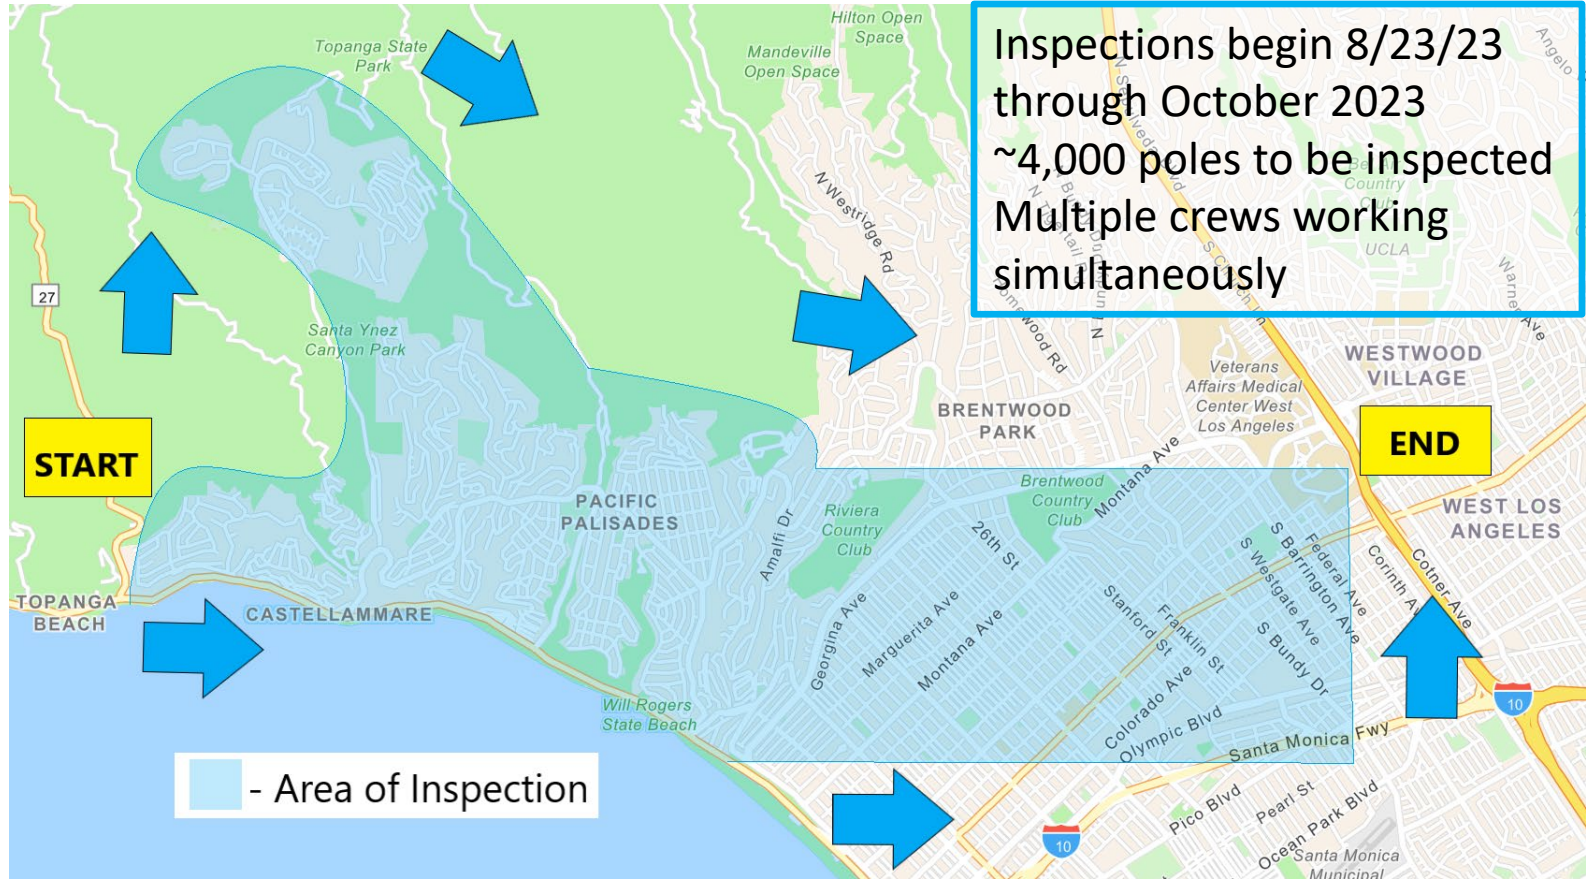

- Osmose identification badge
- Approved LADWP Contractor decal on vehicle
- To speak to LADWP Representative

A door hanger will be left if there is no answer

**Inspectors will never request to enter/walk through a house**
