

Pacific Palisades Residents: Help Shape the Future of Your Community

The Pacific Palisades Community Council (PPCC) is partnering with NORC at the University of Chicago (NORC) to launch a community-wide survey focused on recovery and rebuilding after the Palisades Fire. The findings will help PPCC advocate for policies and resources that reflect the community's vision — ensuring residents' voices are heard and their preferences are communicated to decision makers.

 **Survey invites will come from PPCCStudy@norc.org.** Check your inbox (and spam folder!)—they'll include a personalized link to take the survey that cannot be shared or forwarded to others and are only sent to verified Pacific Palisades residents.

 **The survey is legitimate.** NORC is a non-partisan, non-profit research organization affiliated with the University of Chicago with decades of experience conducting high-quality surveys. They will not try to sell you anything and are not affiliated with any political interests.

 **The survey is for all residents** — homeowners and renters; people whose homes were destroyed, damaged, or unharmed; people who have already returned, plan to return, don't plan to return, or are still undecided.

 **As a thank you for completing the survey, you'll receive a \$5 eGift card** that you can either use at Amazon or donate to a charity of your choice.
