

June 25, 2026, Update to PPCC -- from Sophia Liebman, Sen. Ben Allen representative

Please see the following written update for tonight's PPCC meeting

Our bills are working their way through the Assembly Policy Committee. The following bills have passed their assembly policy committee

SB894 low-interest loans for home hardening

SB1209 CDI examination enforcement

Sb1301 non-renewal bill passed, and we thank all the Palisades and Altadena residents who showed up to share their experience with nonrenewal along with everyone who shared their stories with the office and were shared in the senator's testimony

1093 Mobile Home disaster bill of right

Unfortunately, SB1092, our Mobile Home opportunity to compete to purchase bill failed in the assembly policy committee. Our office was blindsided by this bill dying as we had no indication that this bill was in trouble. We believe that the mobile home park owners were behind the scenes undermining our efforts.

Finally, I do not have budget updates yet as they are finalizing the budget agreement as we speak.

If anyone has any questions, please let me know.

Sophia Liebman
Deputy District Coordinator
Office of Senator Ben Allen
